

Helping You Make the Most of Your Health Care Dollar

The Health Care Cost Management Corporation of Alaska, Inc. (HCCMCA) was formed in 1994 to help participating member health plans in Alaska and Washington control their health care costs by negotiating better pricing on health benefit services than they could achieve on their own.

HCCMCA negotiates discounts with area hospitals, physician and provider groups, as well as vision, hearing, disease management and prescription drug service providers, to serve participating health plan members. We also offer products to reduce administrative expenses and provide value-added services, such as annual health fairs in Alaska and Washington. HCCMCA has 43 participating member plans which currently cover nearly 250,000 lives – and we're growing.

Mission

The mission of HCCMCA is to ensure that workers and their families have access to value- and quality-based health care benefits and services.

We do this by:

- Serving the needs of the HCCMCA member plans and their plan participants
- Promoting the concept of a purchasers health care coalition
- Encouraging organizations to work together to maximize their program and savings opportunities
- Providing information to plan participants, to help them make better health care decisions
- Serving as a multi-state and national voice, speaking out on behalf of our members on health care concerns and issues
- Adhering to the principles of high ethics, integrity and equity

How it Works

HCCMCA works with professional consultants, attorneys and others to implement HCCMCA-sponsored programs. Each member health plan can choose from a menu of program offerings, and then select those that best fit its needs. In addition, HCCMCA also offers a forum to share information about common problems, issues and best practices.

In order to join, each member plan pays a one-time fee of \$3 per employee. Thereafter, participating plans pay access fees based on which programs they utilize. The access fee may be based on a percentage of claims or savings, or may be a per member per month charge.

Keeping health care affordable for workers and their families

3000 A Street, Suite 300, Anchorage, AK 99503
